

Point values for test suite

- 5 char, integer variables
- 5 1D arrays not zero based
- 5 2D arrays
- 5 char vs. integer arrays
- 5 function return values
- 5 function argument passing
- 5 procedures
- 5 stack preservation
- 5 if, while
- 5 Comment describing tests + orderly progression

Point values for code

- 5 char, int, float var assign, print
- 5 char does char assigns, not word assigns
- 5 All operators work
- 5 precedence and associativity
- 5 structs as both lvals and rvals
- 10 if statements
- 10 while statements
- 10 function calls without params
- 10 function calls with params
- 10 int, float return values
- 10 stack preservation
- 5 type casts in visitor
- 10 other style issues
