

Point values for test suite

- 5 char, int, var assign, print
- 5 char does char assigns, not word assigns
- 5 All operators work
- 5 precedence and associativity
- 5 array refs as both lvals and rvals
- 5 function calls without params
- 5 function calls with params
- 5 int, return values
- 5 stack preservation
- 5 if
- 5 while
- 5 Comment describing tests + orderly progression

Point values for code

- 5 char, int, var assign, print
- 5 char does char assigns, not word assigns
- 5 All operators work
- 5 precedence and associativity
- 5 structs as both lvals and rvals
- 10 if statements
- 10 while statements
- 10 function calls without params
- 10 function calls with params
- 10 int, return values
- 10 stack preservation
- 5 type casts in visitor
- 10 other style issues
